

To The FCC with Regard to the Telephone Consumer Protection Act
Docket 02-278

New Jersey's law must stand. By allowing any business I do business with over 18 months to contact me would completely undo the benefit of the current law which is to allow me to "JUST SAY NO" to unsolicited sales calls to my home. I want to retain that right, period. I do not want to have my purchase of a product from any source to be legally translated into permission for the seller to telemarket/harrass me for future sales by calling my home and interrupting my life for an unsolicited sales pitch. The people of New Jersey have spoken. Please listen.
